Archaeological Field Supervisor
Temporary Hourly
Fort McCoy, Wisconsin

POSITION
Two Archaeological Field Supervisor (Temporary Hourly) positions are available with the Center for Environmental Management of Military Lands (CEMML). Positions are expected to extend approximately 8 months from 1-FEB-16 through 31-SEP-16. These positions are located at Fort McCoy, Wisconsin.

ORGANIZATION
CEMML is a research, education and service unit within the Warner College of Natural Resources at Colorado State University (CSU). CEMML applies the latest and most appropriate science to promote the sustainable management of natural and cultural resources on Department of Defense (DoD) and other public lands. We provide technical support, conduct applied research, and offer career development and learning opportunities to support resource stewardship. We collaborate with our sponsors and within CSU to resolve complex environmental issues, leaving a legacy of science-based decisions that sustain our resources for future generations.

LOCATION
Fort McCoy is the largest military base in Wisconsin at 60,000 acres and is located between Sparta and Tomah. Fort McCoy supports the readiness of the force by serving as a training center and a support site for force generation missions. The areas at and surrounding Fort McCoy offer hunting and fishing opportunities along with miles of bike trails, golf courses, and historic areas.

RESPONSIBILITIES
The Archaeological Field Supervisor will oversee field investigations involving archaeological inventory survey, National Register site testing, and data recovery of prehistoric and historic archaeological sites. Other duties include assisting with field data compilation and report generation activities resulting from all field investigations and assisting the Cultural Resources Program Coordinator with the coordination of installation Cultural Resources Program objectives, training, and construction activities. The specialist will brief military and civilian personnel on cultural resources management issues as they pertain to training and construction activities on the installation.
