POSITION
One Wetland Ecology Field Lead position is available with the Center for Environmental Management of Military Lands. This is a seasonal position (mid-May through September with the possibility of extension) located at Fort Wainwright and Donnelly Training Area, Alaska.

ORGANIZATION
The Center for Environmental Management of Military Lands is a research, education and service unit within the Warner College of Natural Resources at CSU. CEMML applies the latest and most appropriate science to promote the sustainable management of natural and cultural resources on Department of Defense (DOD) and other public lands. We provide technical support, conduct applied research, and offer career development and learning opportunities to support resource stewardship. We collaborate with our sponsors and within CSU to resolve complex environmental issues, leaving a legacy of science-based decisions that sustain our resources for future generations.

To learn more about CEMML’s contributions to land management, our mission, vision, and values, visit http://www.cemml.colostate.edu/.

LOCATION
Work will occur on Fort Wainwright and in Donnelly Training Area, both in interior Alaska. Fort Wainwright is located on the east side of Fairbanks, and encompasses over 900,000 acres, including a main post area of 4,470 acres, 8,825 acres of ranges, and over 890,000 acres of military maneuver areas. Approximately 15,000 people live and work at Fort Wainwright. Fairbanks is the second largest city in Alaska by population and hosts movie theaters, museums, parks, extensive hiking and biking paths, Alaska’s largest university and numerous outdoor recreational activities. Donnelly Training Area is part of the Fort Wainwright maneuver range and is located near Delta Junction, interior Alaska’s agricultural center. Delta Junction is a small town of just under 1,000 residents and is located about 90 miles south of Fairbanks, the closest city. The town has incredible views and access to the Alaska Range, the Delta, Tanana and Clearwater Rivers, and basic services (groceries, library, and medical clinic). Summertime climate in both locations is typically sunny with temperatures of 60–90 °F.

RESPONSIBILITIES
The successful candidate will lead crews to assist with wetland mapping on Army lands. Main duties for this position include training and overseeing crews during field work, planning and implementing field logistics, maintaining excellent attention to detail and organization while supervising the collection and management of all field data, QA/QC of data, and performing wetland determinations. Other duties include taking and documenting disciplinary actions, off-trail hiking to field site locations, visual identification of landscape and vegetative ecotone changes, plant collection and cataloging, and plant identification with field guides and
botanical keys. Skills integral to this position are: identifying hydric soil and wetland hydrology indicators (digging soil pits, coloring and texturing soils, and describing soil profiles), familiarity with soil formation, interpreting aerial photos, locating plots with GPS units, experience with Access and ArcPad programs. Candidates should expect to work in inclement conditions, camp for extended periods in remote areas, travel in fixed and rotary wing aircrafts, and operate 4-wheel drive ATV’s and trucks. Out-of-state applicants are encouraged to apply, though they should note that off-duty transportation and relocation costs are not provided.

MINIMUM QUALIFICATIONS
This position requires a bachelor’s degree in soil science, hydrology, botany, biological science, wetland or terrestrial ecology, or a closely related field. Applicants must have prior field data collection experience and be versed in using botanical keys (i.e., Flora of the Yukon Territory) and collecting floristic data. Candidates should be capable of following detailed protocols, working effectively in small groups, and conducting repetitive tasks in an office setting as well as outside in cold, wet and mosquito infested conditions while hiking for up to 10 hours per day on uneven, wet terrain carrying a 30 lb. pack and a shovel. U.S. citizenship or legal documentation is required. Applicants must have a valid driver’s license.

DESIRABLE QUALIFICATIONS
Experienced leaders with schedule flexibility are highly desired. Successful applicants will preferably have knowledge of northern boreal plant ecology and a working understanding of wetland ecology, hydrology and soil processes. Applicants should be highly motivated to learn, interact closely with team members and enjoy field work.

BACKGROUND CHECK
Colorado State University is committed to providing a safe and productive learning and living community. To achieve that goal, we conduct background investigations for all final candidates being considered for employment. Background checks may include, but are not limited to, criminal history, national sex offender search and motor vehicle history.

PAY RATE
$19.50 - $21.50/hour (40 hours/week). Crews generally work eight 10-hour days followed by six days off. Continuation of the position is dependent on the receipt of funding from the sponsor. Benefits for the position include Workers Compensation benefits and contribution to a retirement plan, but do not include medical, dental, vision and life insurance policies.

APPLICATION
Applications will be accepted until the position is filled. Documents must be delivered as Word or PDF files. To apply for this position, submit the following items in your application package:

(1) Cover letter explaining why you are qualified for this position and how you meet the minimum qualifications
(2) Resume
(3) Copy of college transcripts (unofficial copies are acceptable)
(4) Names, daytime phone numbers, and email addresses of three professional references, one being a current or recent supervisor.

Incomplete applications or those containing sensitive personal information (i.e., social security or driver license numbers, birthdates) will be removed from consideration.

Send applications to Amy Tippery at Amy.Tippery@colostate.edu
